

SAYDEL COMMUNITY SCHOOL DISTRICT

OBJECTIVES OF BUILDINGS & GROUNDS

This series of the Board policies sets forth the Board's objectives and goals for the school district's buildings and grounds. It is the goal of the Board to provide sufficient school district buildings and grounds for the education program. The Board will provide an environment that will encourage and support learning.

In providing this environment the school district buildings and grounds will accommodate the organizational and instructional pattern that supports the education program. The Board will have final authority to determine what is necessary to meet the needs of the education program.

It will be the responsibility of the Superintendent to oversee the day-to-day operations of the school buildings and grounds and to notify the Board of areas in need of improvement.
